Objective

Aspiring and self-taught Front-end developer with a passion for crafting clean, responsive, and user friendly web interfaces. Strong foundation in HTML, CSS, and JavaScript, with hands-on experience in React.js through personal projects. Motivated to learn, grow, and contribute to real world development teams.

Education

Fakir Mohan Autonomous College, Balasore

July 2023 – May 2026

Bachelor of Science in Computer Science

Odisha, India

Technical Skills

Languages: JavaScript, HTML, CSS

Frameworks & Libraries: React js, Tailwind CSS

Databases: MongoDB

Tools & Technologies: Version Control (Git), GitHub, Responsive Design, npm, API Integration

Deployment: GitHub Pages, Netlify, Vercel

Core Competencies: Frontend Development, Problem Solving, Team Leadership

Experience

Frontend Developer Intern

May 2025 – July 2025

MindBrain Innovation Pvt. Ltd.

Bhubaneswar, Odisha, India

- Led a team of developers as Project Leader for SpicyHub, a frontend restaurant ordering web application, coordinating task delegation, code reviews to ensure timely delivery
- Developed responsive and intuitive user interfaces using React.js, implementing component-based architecture and state management for optimal user experience across devices
- Conducted code reviews, developed and mentored developers on React best practices, Git workflows, and modern JavaScript ES6+ features

Projects

Messify, Mess Discovery and Management System | *React.js, Tailwind CSS, JavaScript*

[Link](#)

- Built a highly interactive and responsive user interface using component-driven development, ensuring smooth state management and clean layout structures.
- Mess owner can create their profile and fill mess details, manage their customers, send bulk message through email and user can search mess by filtering city, price range, amenities, mess type etc. and directly get the owner contact details.
- I can also integrate Backend by using Node Js, Express.Js (for api handling and server side logic) and MongoDB (for data storing).

SpicyHub - Restaurant Ordering Platform | *React.js, JSX, CSS*

[Link](#)

- Architected and developed a comprehensive Frontend restaurant ordering system with user authentication, menu management, cart functionality features
- Utilized React hooks (useState, useEffect) for state management and side effects handling

Personal Portfolio Website | *HTML, CSS, JavaScript*

[Link](#)

- Designed and deployed a professional portfolio website showcasing projects, skills, and experience with modern UI/UX principles
- Implemented smooth, responsive animations and integrated a direct-contact email form for optimal user engagement across all devices.

Achievements & Leadership

Team Leadership: Successfully led development team for SpicyHub project, managing timelines, delegating tasks, and ensuring code quality through peer reviews

Self-Learner: Independently learning for MERN stack technologies through online resources, documentation, and hands-on project development

Problem Solver: Strong analytical and debugging skills demonstrated through building multiple production-ready web applications from scratch
